

PUBLIC NOTIFICATION

2020/2021 SCHOOL YEAR

August 1, 2020

Distribute: Principals, Staff, Parents, Students and Organizations

Re: **Notification of Asbestos Inspection and Management Plan Availability**

To: Whom It May Concern,

The Asbestos Hazard Emergency Response Act (AHERA) requires that all schools conduct detailed inspections to identify all asbestos containing building materials that may be present in the school environment. AHERA requires the inspection results and the associated Asbestos Management Plan be submitted to the Louisiana Department of Environmental Quality (LDEQ). A copy of the Asbestos Management Plan must be maintained at the administrative office for review by the public.

Live Oak High maintains a proactive asbestos awareness program. The architect responsible for the construction of this school has provided a letter stating that to the best of his knowledge, no asbestos containing building materials (ACBM) was used at this school.

This letter of notification is an annual requirement to the public. If there are any questions, please contact the Designated Person, Danita Duffy, at 225-686-4212 for more information or assistance.
